Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. Claim 9 objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend on other multiple dependent claims. See MPEP § 608.01(n).

Accordingly, the claim 9 not been further treated on the merits.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-2 are rejected under 35 U.S.C. 102(e) as being anticipated by Boros et al (6,615,024).

Consider claim 1. Boros teaches a method of estimating a downlink channel (see the entire abstract) between a base station (main transceiver or base station 101) and a mobile terminal (remote transceiver or subscriber unit 141 or 143) in a mobile telecommunication system, comprising the base station estimates the uplink channel between the mobile terminal and the base station (col. 17, ln. 9-35), deduces, from the variations in the uplink channel, those in the downlink channel and estimates at a second instant the downlink channel from an initial estimation at a first instant and variations in the downlink channel between the first and second instants (col. 33, ln. 42 to col. 34, ln. 12; col. 35, ln. 60 to col. 36, ln. 26).

Art Unit: 2643

Consider claim 2. Boros further teaches the initial estimation of the downlink channel is obtained by the mobile terminal and transmitted it to the base station (col. 21, ln. 14-29).

Allowable Subject Matter

4. Claims 3-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
